

**REPUBLIC OF ALBANIA
FINANCIAL SUPERVISORY AUTHORITY**

No 1117 Prot

Tirana, 22/04 /2024

Subject: Letter of recommendation to Prime-Re-Solutions

To: **Whom it may concern**

The Albanian Financial Supervisory Authority (AFSA), received a dedicated training on "Technical Provisions of Non-Life Insurance under Solvency II", in the form of a workshop, provided by Prime-Re-Solutions, which took place in Tirana from February 28 to March 1, 2024.

During this three-day event, insightful presentations delivered by Dr. Frank Cuypers, and Simone Dalessi of PRS Solutions, provided a holistic understanding of Solvency II technical provisions. The interactive format of the workshop, including exercises and tests, ensured active engagement from attendees, leading to a deeper understanding of the subject matter. The feedback received from participants was very positive, with high satisfaction levels reflected in the post-event survey.

We believe that this workshop has contributed to the development of insurance industry professionals and enhanced AFSA's capacities towards implementation of the Solvency II regime. Thus, we would recommend collaborations with PRS Solutions in this domain.

Sincerely,

EXECUTIVE GENERAL DIRECTOR

Mimoza Kaçi
