

INSURANCE AND ACTUARIAL ENGINEERING

# Prime Re Solutions

Company Presentation

# Actuarial Engineering

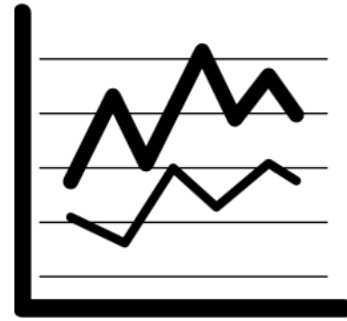

Prime Re Solutions provides **outsourcing services**, such as the **actuarial function**, **appointed actuary** or **audit support**, **consultancy services** with a comprehensive range of **traditional and innovative solutions**, and **trainings** for the **actuarial community** and **insurance industry**.

# What we do

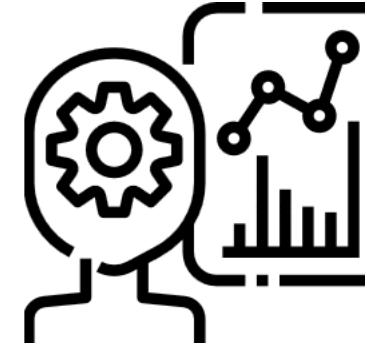

## Standards & Regulations

We ensure your products and processes fulfil the rules of the game.

## Models

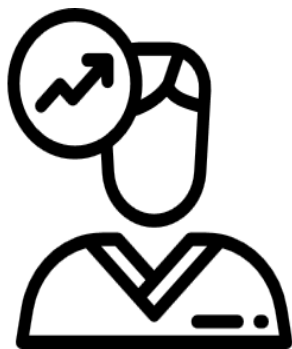

We shape your financial and economic ecosystems with robust models.

## Production

We develop products, design processes and handle manifold data.

# Whom we serve: Experts

## Actuaries

... benefit from our advice in complex situations.

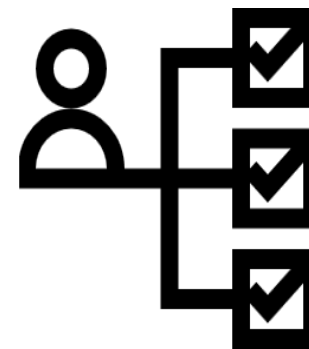

## Risk managers

... optimize your risk-returns with our expertise.

## Finance Executives

... implement bespoke structured solutions with us.

## Internal Auditors

... call upon us for ad hoc specialized and independent know-how.

## Regulators

... leverage our expertise to audit and validate risk models.

# How we deliver

## Development

We implement standard models or design ad hoc solutions for you and ensure a valuable know-how transfer.

## Execution

We perform actuarial tasks you wish to outsource to us, for instance as Appointed Actuaries.

## Validation

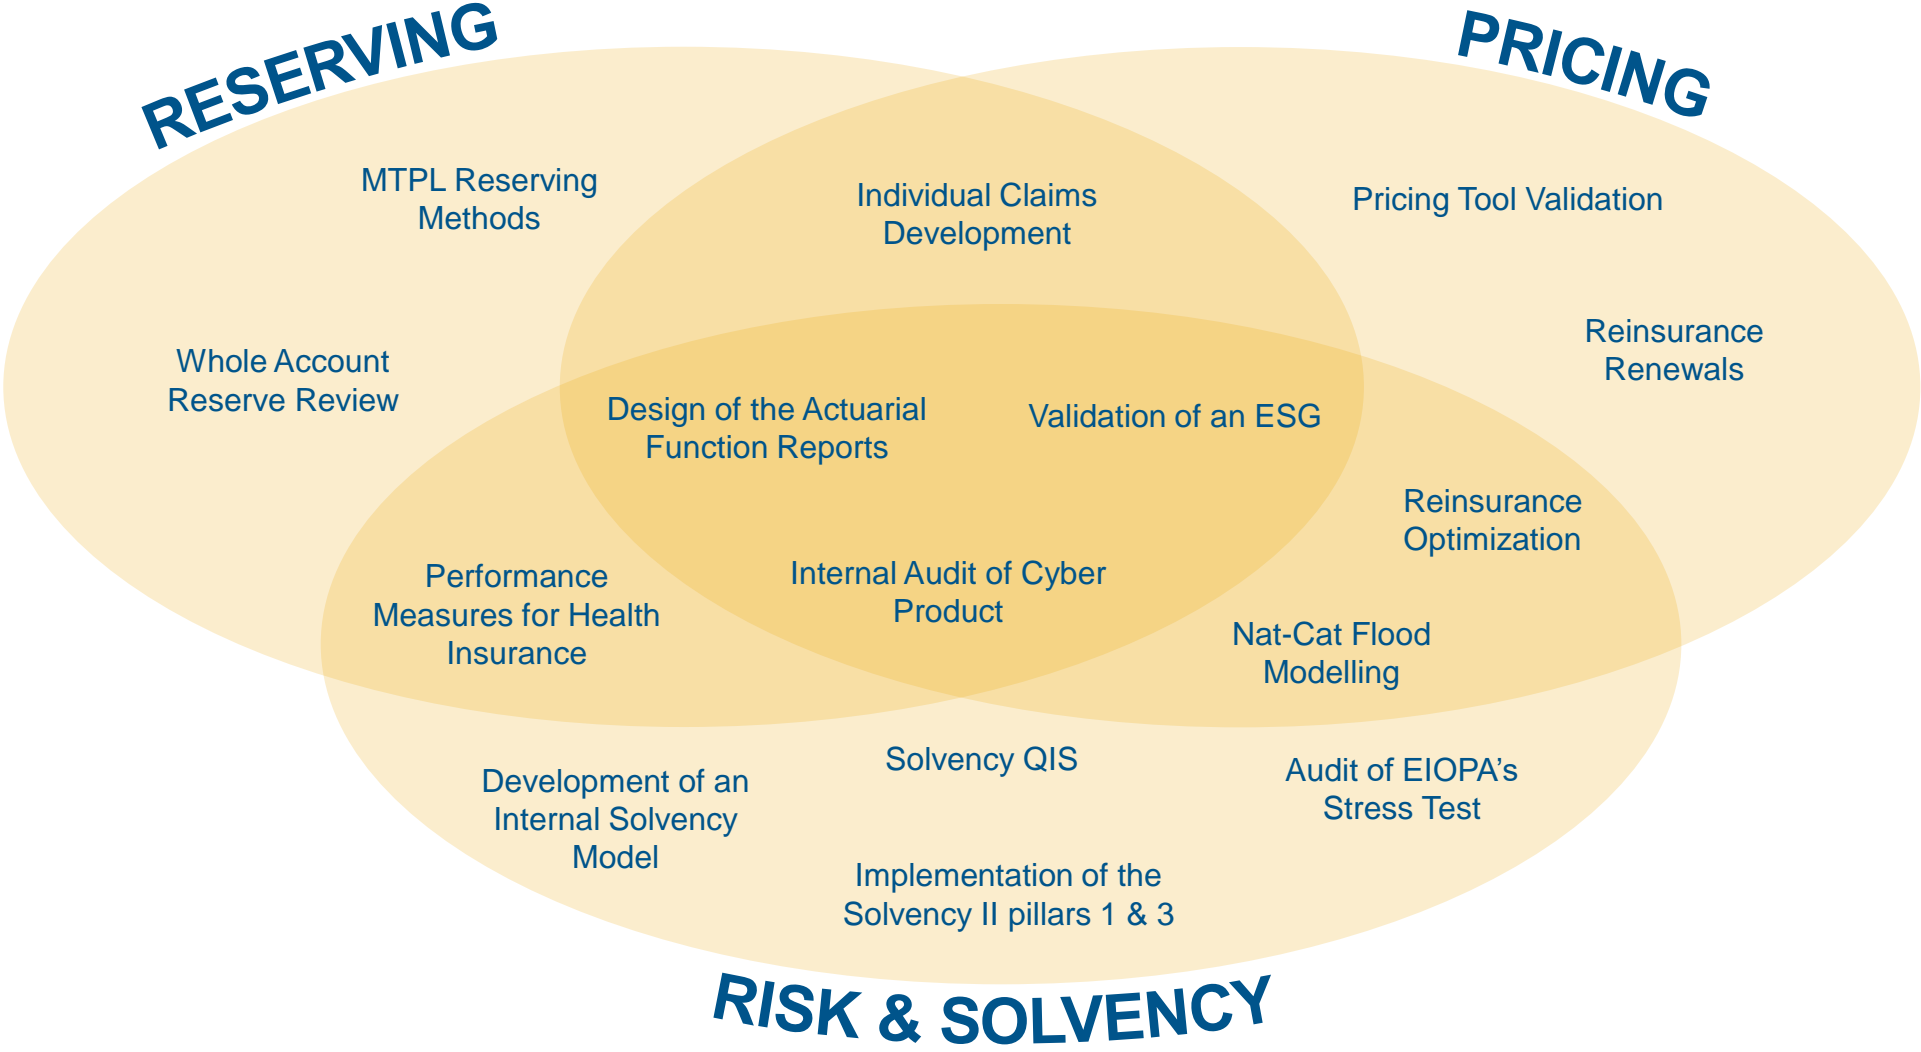

We independently review your processes and models.

## Training

We coach you in-house or through the Prime Re Academy in state-of-the-art techniques.
